**APPLICATIONS FOR CONIDUR® HOLE  
SHEETS**

# APPLICATIONS FOR CONIDUR® HOLE SHEETS

CONIDUR® HOLE SHEETS ARE SUCCESSFULLY USED, FOR EXAMPLE, IN:

## Processing technique

- with processing of feeding stuff
- for milling of plastics
- for milling of grain
- dish for drying/cooling of foundry sand

## Chemical industry

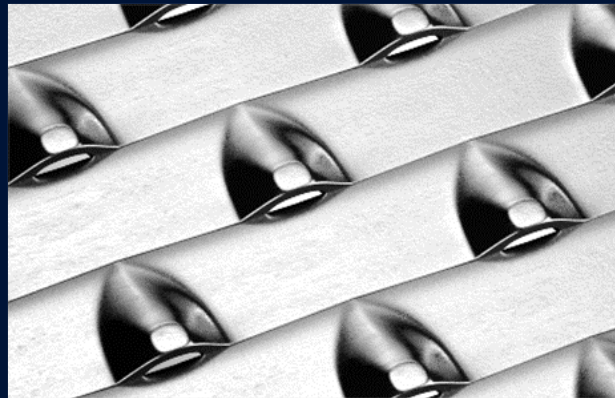

- as filter element in plates
- as centrifugal screen
- as a screening element in mills
- as a gas-distribution deck for inflow floor for fluidised bed units

## Pharmaceutical Industry

- as a gas-distribution deck for fluidised bed units
- for coating systems
- for pneumatic transport desks

## Food Industry

- for pressing moulds in the cheese industry
- as a screen panel in mills
- as a separating element in fruit juice manufacture
- as a gas-distribution deck for fluidised bed units
- as dewatering and working screen for sugar and starch centrifugals

## Further applications

- as a ventilation element for silo and hopper bottoms
- as a filtering surface
- as a screening surface
- as a distribution deck for pneumatic conveying channels
